Assignment N0.2

Expense Tracker App
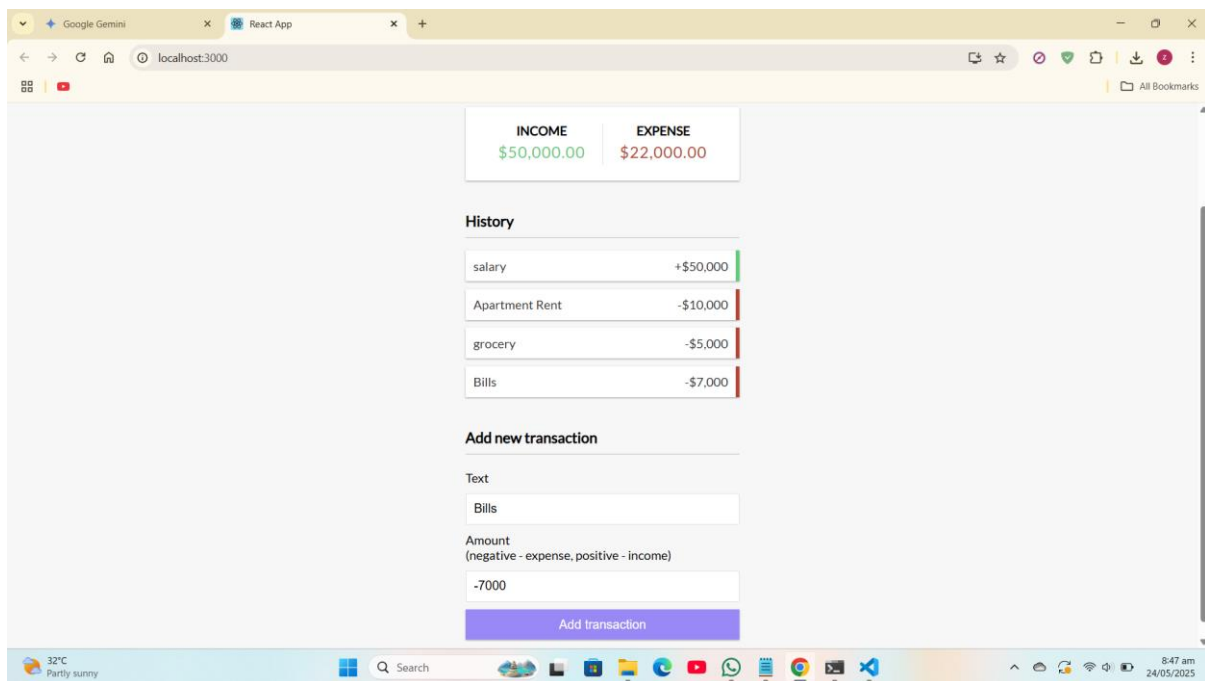

Submitted to: Prof. Hamza Afzal

Section: BSCS6-D

Roll no: G1F22UBSCS176

Name: ZAINAB MINAHIL SHAHZAD

APP INTERFACE:

Summary:

This project is a full-stack web application for tracking expenses, built using the MERN stack, which consists of MongoDB for the database, Express.js as the backend framework, React for the frontend user interface, and Node.js as the JavaScript runtime environment. You successfully cloned the project, installed dependencies for both the backend and frontend, configured the MongoDB connection using the `MONGO_URI` environment variable, and started both development servers, allowing you to interact with the application in your web browser to add transactions and manage your finances.
